Education Costs and Control

In seconding the motion in reply to the speech from the throne in the Ontario Legisla-peech from the throne in the Ontario Legisla-ture, Maurice Hamilton, Propressive Conserva-tive member for Emrirey North twitted Opposi-tion Leader John Winterneyer about his pro-posed in the province assuming a higher share of the Control of education.

or the cost of education.

"He (Mr. Wintermeyer) proposes to have
the province take over all or nearly all of the
costs of primary and secondary education," he
said. "This would mean, of course, the sholltion
of local school boards or reducing them to a
state of helplesmess, for if he is going to pay
the piper you may be sure that he or his buressurers; will call the tune."

Mr. Hamilton is right, but this comment amounts to little more than the statement of a problem, rather than providing any indication as to how it should be handled.

as to how it should be handled.

Moreover, it is not a problem which exists with respect to education alone. Proclety the same set of circumstances will be found in any examination of the problem of providing hospital accommodation, for example, or of the protision of welfare payments to those unable to work or as the to work but unable to either find jobs or to qualify for unemployment insurance. In more and more municipalities the expenditures on projects which are a legitimate charge against real estate are rising to a point where

against real estate are rising to a point where against real estate are rising to a point where it is becoming increasingly apparent that pro-perty owners must be given some relief from paying the costs of services which have no direct relationship to real property.

Such relief can come in one or two forms-either a widening of the taxation powers of municipalities or an assumption by the provin-cial or federal governments, or both, of costs now borne by municipal governments. If the latter course is taken, then there arises, as Mr. latter course is taken, then there arises, as Mr. Hamilton noise in connection with education, the question of control. The government which pays the piper is maturally going to want to call the time, but at the same time there are such civrious advantage to some form of local admin-distriction and control that complete abolition of the and centralization of full repossibility for the and centralization of full repossibility for the and centralization of full repossibility for the and centralization of full responsibility for collection outdoor by received with general minimum outdoor by received with general minimum of the collection.

Some compromise, such as the retention of local boards, composed of local citizens appointed by the province, might be feasible. If it is objected that this would reduce the voice of the objected that this would reduce the voice of the individual in the conduct of community business, one can only point out that already many school boards are no longer composed of elected members. Nor. for that matter are hospital beards selected by ballot of the whole body of voters—although in most centres any citizen interested enough to attend an annual meeting can have an equal votce with all others present in the selection of the board for the coming

An alternative to this apparently inevitable decrease of the control of the citizen of today over the institutions necessary to the lite of his community would be the extension of new taxing power to municipalities. This, though, is a most difficult operation. Perhaps the easiest method would be to set aside for the municipalities. pality a: fixed proportion of certain taxes collected within its borders—sales tax, gasoline tax, income taxes, etc.—though it is difficult to see how such a system dould be operated with equity to rural municipalities.

equity to rural municipalities.

In the final analysis, however, there is little doubt that eventually some such more will have to be made or municipalities will have to surrentifer control over fields which were once considered primarily their concern. Between municipal bankruptcy and surrender of control over the control over to the provincial or federal governments, there is only one realistic choice.

It is easy enough to prove that a nation s progressing if you assume, as almost every-ody seems to assume, that higher incomes or larger exports are evidence of progress, for you have merely to turn up a few figures in the nearest reference book; whereas if you believe that progress in a nation can only mean that its citizens have become better and happier, you have a much more elusive and intractable you have a much more clusive and into proposition on your hands.—Lord Elton.

Even for him who occupies my post, it is more important to be able to keep silent than to be able to speak.—Pope John XXIII.

I've got nothing to hide.—Joan Mary Barry, 25, requesting a public trial after she was arrest-ed for wearing a bikini on a Sydney. Australia, beach.

Safety First is a very fine slogan

EVERY WEEK OF THE YEAR!

'SAFE DRIVING WEEK"

But because it is used so frequently, its meaning is often overlooked. It means that despite all the distractions of twentieth century motoring, safety must be kept uppermost. in all our minds whenever we drive.

"ISafe Driving Week" is sponsored by the Canadian Highway Safety Council. Union Carbide Canada Limited joins the Council in urging all drivers to keep safety first in their minds during this special week... and throughout the year.

RARE, MEDIUM, WELL-DONE

By GEO. H. CARVER, Sports Editor

Is the multi-ringed extravagance circus spawned 1945 by the Calgary Stampeders and Ottawa Rough iders on the way out?

Is the fantastic football rainbow that arched a coast-le-coast with its million-foliar pot o gaid Nevember or early December headed for the p-pilot

I'm not talking about the Grey Cup-game. There enough fans in the circuit ellies to jam-pack the cons stadis. But is the interest behind the interest inning to lag?

aing to lag?

Toronto and Vancouver, the alternate sites of the
lest, shootinest, rootinest, tootinest fanfare speclar before and after the historic "rame," generally
were from the mass hangevers with something like

numes or two in the business coffers.

Only a few patigity themasoids craim the stadia watch Canada's titans of the gridient hattle recommand suprement, and the Can. The record at the canada suprement, and the Can. The record at the canada suprement and the Can. He was not the stade was set in Vancouver in 1855 when 18,417 of their way that Empire Stadiant. The expected midanes at Townston's CNE Stadiant for Sensorous's CNE Stadiant for Sensorous CNE Stadiant

And what was left for the hicks in the sticks? Once a time, kiddles, you could turn on the family magic are said lo, and behold, there it was. You could see a fough Riders, Monitreal Alouettes, Toronto making the property in action. Later could see the playofts climpers in action. Later could see the playofts climpers with the brightest of the football crown, the Grey Cop.

But to get back to the original topic or this piece, there is always the grand pre-game, all-day-all-night spectacular that turns staid old Tromas into a whocoping, shouting, fremded macistrom of celebrating

There was, and is, a grand parade. Floats, bands, slowns, both in and out of the marching celebrants, restly girls, cowboys from the golden west and downtown trug stores, all forming a wildly exuberant, excited knong in a colorful, fun-packed overture to the gridiron

And in the cold gree dawn of the merning after, the best city counts its golden haul. One million perhaps two, resi coulty in the coffers. Gone are the western aasles, departed are the eastern hander-botts. Belind them they leave beautiful shakel-liked nests. Perhaps a boile or two has been wrecked, but their all in the game.

that's all in the game.

SUNDAY SPORTS

I. Be Sensible About Sunday Sports

We are strongly against an Open-Sunday, but we do want a day when our young people can participate or attend clean healthy phys-ical sport. Practically all amateur sports lose financially . . . Admission to Sunday Games will allow the purchase of needed equipment.

2. The Thin Edge of the Wedge

In England and Europe, Commercial Sports in England and Europe, Commercial Sports on Sundays are a great source for family group amusement. This has been accepted for years, but Trades people and shops are not working.

3. Is Sunday Sports Selfish

The few people who may work in this regard on Sundays, usually work now without pay— at least they will then be paid and flave a day off in the week.

4. The Control of Hours

The control of hours for Commercial Sport on Sundays rests with your City Council. Undoubtedly they will use their good judg-ment to see that Sunday will not be the wide-open day now visualized by many.

THIS VOTE IS FOR ORGANIZED SPORT. NOT SPORT CAR RACING AND SUCH.

Tale of Two Lakes

The Great Lakes Fishery Commission met at London, Ont., this week.

at London, Ont, this week.

The new wires carried two stories, one promising, the other saddening.

Coatest of the improps is in sight, it was Coatest of the improps, scarred dish caught in Lake Smumber of isamprey-scarred dish caught in Lake Smumber of isamprey-scarred dish caught in Lake Smumber of its a clying lake, stiffed by an accumulation of swage and industrial wastes, with insoluble common detergents being one of the major factor. Once abundant is these pickers and close have been replaced bearing the coates of the coat carp.

Lake Superior is the only one of the five

Great Lake in which lake frout are still caught in goodly numbers. Perhaps the victory over-the lamprey may preserve this fine fish for some the lamprey may preserve this fine fish for some investment and appreciate water thins—but in the end, unless man ments his self-case of the same false as shallow lake fire. The matural wealth of the area fars around the lake will, in them, attracts people who will build big cities. When the same false people who will build big cities, we show the same false people who will build big cities. Why reason is writing this achieve with thriving industries, which will threaten the lake girth pollution. It is no complete rebuttal of this suggestion to point out that great strides are being made in the treatment of sewage and, other wastes. There are some wastes which are not so ready made harmless—the detergents which have largely replaced scape being among the worst threats.

Byton was no prophet. Perhaps, in his day, it could be truthfully said "man marks the earth with ruin; his control stops with the shore; upon the watery plain the wrecks are all thy deeds." But not today.

RARE, MEDIUM, WELL-DONE

By GEO. H. CARVER, Sports Editor

Jack Kearm, the colorful old master of the ring sia, is in Mentreal danching attendance on his author-lessyster psychologist. Hight beavyweight champion, Hon, Archibaté Moore, who fights 900 Cleroux, coday, and as usual, falling to all and studyy of the on who happens to be milline earnbot.

Eliner Ferquicio, the dean of Canadian sports columni-tailed with Kearns about the tensou Toy Bulldog, say Walker, who was a Kearn' protege and money-ser, and who is this suther of a new ring book, "The Bulldog and his These," written by Joe Reichler, the clained Frees sports expert.

"Walker was a character," Kearns told Fergy, "also rest fighter. He was a jush, and so was I in those s. Money didn't mean a thing to us."

Fergy says the Walker book describes what must have 1 the prize blowout of all times in Paris where Mickey Kearns went with some \$350,000 after he knocked Tommy-Milligan, the British middleweight champion

He writes, he had little recollection of the fight read the next day that he was knocked down eight as in the first reund and 14 in the first three, was tald Ferzy he thought that was an maggera-t. He thinks it was only ten, five in the first

Rowever Kearns told Fergy there weren't that : chickness are was Walker as looded as he says. I a guarantee of \$8,500 but the promoter could hep up \$3,000 in the afterancen, so I told him no er he said he had more so we took on the fight."

Walker, says Fergy, was one of the greatest via iters of all time. He was the fourth fighter to be ned by Ring Magazine to its modern Hall of Peme first three were: Jack Dempsey, Joe Louis and Henry

He once ran a selson opposite Madison Squary rden, but was never in it. He wide range of role included Twans Guinas, New Med range of pone, Demzery, Pamy Brick, Jimary Dermite and Jimary Demzery, Pamy Brick, Jimary Dermite and Jimary Demzery, Pamy Brick, Jimary Dermite and Jimary Demzery, Pamy Brick, Jimary Landard, tip to liters was a \$100 bill.

He once had a million dellars in \$1,000 bills in a safety deposit box. He blow it all on slyw horses, fast living and his seventh wife got the rest. She beat him to the vanil one day and took aimost a half-million dellars, or which \$159,000 was in stocks and

Such a development is no accident; nbody supposes that Khrushchev and his clique could not continue to six on the lid and suppress the interchange of ideas if they so desired.

This "cruck in the loe" is the East desarres to be matched by a similar thaw in the West. The difficulty is that the Russians themselves have made any such a development difficult by the manner in which they have treated the peoples of so many different nations.

It would be erroneous to regard this as an exception, rather than the general rule, of the manner in which the While forces conducted themselves during the Civil War. That their betroftsm was natched by the Reds cannot be denied, but that it was saiely inspired by the Reds prior attrottles is doubtful-the pessants and city workers had been treated like dogs while the redshift of the re whites were only doing what came naturally in their harsh reprisals for what they regarded as

Any "thaw" is going to be a long and complicated process. The appearance of a "crack in the tier" like a truthfully reported interview with the US, president is not going to be followed by that sudden breakeny which often features spring in Canada or in Russia: And, of course, we do not know whether this is even a genuine thaw, or just a temperary midd apple, to be followed by even of older weather.

Grani praised the Tiger Case. "We couldn't find y weakbesses, any man out or position or playing poorly we could capitalize. They were plenty tough. It saids have been nomething if we had had to go into an-ere overtime session—we were just about out. They if went down a little before we did."

Quarterback Komny Pioen, who made the 18. yard touchdown that won the game, said the play started out on a man. "It was supposed to be a drop-back pass on a book pattern," he said. "I just run out of the pocket—it's a bad habit I've got into."

Thinks spake he had a half. They got into."

Trimble spake to each of his players before he alto die speke in the TLCsis dressing room. When he ke to the newspaper boys he wan't finishing his sense. "Gef Faloney burt, Hickman, Kelly—we've got a glist of them. Henley was hurt. Hell of a bruising 8, real tough."

It shouldn't take world champion Flord Pat-terson too long touight to polish off the confident young chalignary from Boston, Tom McNeeler, But then I piked Hamilton to wire the Grey Cup. However, I will go slong with my old boxing buddy, one who has seen more world title ballite than any six men in the olfs, "Under" Harry Robinson.

Says Harry: "Floyd will walk out of the ring the winner either in or just after the fifth round. And while I am on the subject, Sonny Liston will do the same thing."

compound interest!

Compound interest is a fascinating thing-if you can really make it work for you! The trouble is most forms of investment pay dividends or interest as earned.

It is so easy for young and middle aged men to take such dividends and interest and spend them as they come along—with the result that they become old men ready to retire before they

compounded interest. Permanent personal life insurance is un'oue! It pays compound interest upon the townsment portion of the premium-out it does so by saving the simple interest and compounding it, instead of paying it out each year or making it

so easily available that the temptation to take it out is almost irresistible. The Excelsior Life man in your community can tell you how compound interest in permanent personal policies may provide an attractive "Blueprint for Security" for you

and your family.

strontium absorption by plants being low.

The main sufferers from recent Russian tests may be the Chinese, not because they live closer to the test sites but because they get their calcium from rice instead of from milk. This switch in the villativs role, from milk to rice, will please everybody hereabouts—except those who like rice pudding liberally doused with

milk. They, it appears, just cannot win, unless they can induce rice to grow in one of our calcium-rich limestone quarry ponds.

Common Market

Following the final release to Ottawa of Britain's Lord Privy Seal Edward Heath's speech of last October there undoubtedly were a few red

of last October there undoubtedly were a few red faces about, or aboutch have been.

The hue and cry raised about the Commonwealth being betrayed does little credit to the Canadian officials and representative who created and perpetuated this noneause. It is now quite erident that the lack of faith which certain people placed in 'the titled Kingdom's good intentions was completely 'unjustified.' We wonder, however, whether they really

did have a lack of confidence in Britain's aware-ness of her Commonwealth responsibilities or if they were actually creating some sort of a scape-goat to draw attention away from a more serious This is the problem of a consistently rising

cost of production with little or no increase in total national output. The problem is com-pounded by the fact that there has been con-

pounded by the fact that there has been con-iderable government spending, in the form of subdidies, which has contributed no real good and has possibly enhanced the situation. There is really no problem concerning a Common Market or a Commonwalth Market, In a few years we shall, if the present trend continues, price ourselves and our products right off any market anywhere. Our problem of easiling, in the linght competities would of track of today jies right in our own front room and not abroad.

There is no readier way for a man to bring his own worth into question than by endeavor-ing to detract from the worth of other men.—

Those who are greedy of praise prove that they are poor in merit.—Plutarch.

Loses Job

Maple Street needs another Volkswagen.

When you own a Volkswagen, you can expect company after a now storn. Inoutilities company. They'll won't to know why your calls got through the diffit, and theirs didn't. There's no trick to it. A Volkswages has its explos in the reart where it does the most good. The extre weight over the drive wheels provides an amounting amount of traction, even on

tion keeps you out of trouble.

Another blessing in cold weather is the YV's air-cooled angine. There's no water, so there's no head for anti-freeze. You don't even need a grange. (If your Yolkswagen won't start in sub-zero weather, check the star notice.)

So, if clearing a mow-filler way is not for you, make with a Volkswagen owner. Or still, a Volkswagen dealer.

Well Satisfied With Council

Well Sainsied With Council
Belleville reddents are sparently well saiisted with the manner in which municipalaffairs have been conducted here during the past year. That is the conclusion to be drawn from
the re-deriction of Mayor A. M. Haig by such a
big majority and from the fact that all three
of the retiring addernies who sought re-decion
were granted it and were placed at the head of
their hadriduit votes, and although congratilations are in order for Ald. Watter Ellott for
placing first, heighter of the collegans, Ald. Bear placing first, neither of his colleagues, Ald. Bea, Corke and Ald. John Ellis, have any reason to feel the alightest dissatisfaction with the sup-

port they received.

Of the other four men elected as aldermen, three are newcomers. Two of these, Joseph Ray-croft and fittant Robb, made a particularly auxiliarity and the start of their political careers, finishing well within halling distance of the three re-elected aldermen. William Lowen, the third measuremer, and Lettle Digby, who has had previous appearance on the council, while they had some blossand fewer votes, were recredibles on the control fewer votes, were recredibles of the control of the contro

Probably the major interest this year cen-tred not on the mayoralty or the race for aldertree not an the majoraty or the race for manning seats, but on the two questions dealing with Sunday recreation. Both Sunday sports and Sunday mories were rejected by wide margins, but there is a growing trend across the province towards a relaxation of restrictions on Sunday activities and it would be nalve to suppose that we have heard the last of this question here.

Farafortically enough, the lack of the success which afsociate of Sunday sports and Sunday movies met with here is probably the result of the fact that there has already been relaxation, of citrbs on Sunday entertainment, which is now widespread. Not all of the Sunday activity common in the district has been legal. No law is a good law unless it is enforced and it now behooves the authorities to lake action against infinitellium. That their may speed the day where restrictions will be legally relaxed is beside the point. Paradoxically enough, the lack of the success

Riposte

H. George De Young of Welland is a man of courage. The chairman of Canada's Pro-ductivity Council visited Detroit Monday to speak on an assigned topic, "Why Does Canada Trade with Cubs, Red China and Russis?" That would with Cube, Red Cama and Russia? That would not be a simple assignment for a Canadian born and bred. But Mr. De Young is a native of the United States, who came to this country in 1951 and became a naturalized citizen in 1956, and is now president of Atlas Steel Company. Its seems to us these circumstances heighten his courage in returning to his native Michigan and speaking before the Detroit Economic Club on such a potentially emotion-arousing subject.

Mr. De Young did a magnificent job for his adopted land. He presented figures showing Canada's sales to the Soviet bloc had declined between 1866 and 1860, while U.S. sales had multiplied seventeen times.

There is nothing like a few hard facts to take the wind out of critic's sails and Mr. De

take the wind out of critic's saits and Mr. De Young was not only marized to quote stem, but was also prepared to drive the point home with a stilling ripotest-inding with Rissias, Qubs and Red China is not as much frowned upon by Americans when it is done by others, he said.

This is hitting perity, hard—but Mr. De Young was not swinging for the mere love of a fight. He drew a conclusion from these tacks of a fight. He drew a conclusion from these tacks in particularly and the contract of the U.S.

"Perhaps if you altered your competitive outlook so as to allow Canadians to compete for some of your manufactured goods market, it could not only become unnecessary but inexpedient for Canada to trade with customers you do not approve of," he said.

It is parents and teachers who decide, with the new or are conditioned to devote most of thair serious attention to the old. If children grow up comful of contemporary culture, I am sorry for them. If they grow up without a vital interest in contemporary affair, I am sorry for us all—John Rale, Lecturer in Ristory at 3 of Control University.

By GEO. H. CARVER, Sports Editor

"Lammy Lamirande," says Gordie Bell (and I'm getting this second hand), "had the best-defence in On-tarle, if not in Canada, as far as the brand of hocker is concerned."

As I said I am told the statement is credited to Gorde and after seeing Lammy's rearguard in action I'm inclined to agree with him.

After all, you take Fiori Gorgan, Lammy, Licoci dy and Fiord Crawford and you have a reargaard so that once held the cross of Canadian goal-ers at bay, "At times it seems you would almost oct to see big Mos Scnoil leap out an its los.

With Turk Barelay doing some yeoman antics be-tween the pipes, and the "Big Four" in froot of him. there hant't been too many, peals fill between the posts this season. And young Gord Irwin, who is being given plenty or work by the coach, is fitting in very nicely with the scheme of things.

The Globetretters at the moment have a won two-loot-two record and have been coming up with some exciting backey their last two or three times out. The Pept's pay the return call to Trenton on Friday might.

The Flyers have won their last two starts against the smannfille Logion and with the taste of victory sweet their mouths are looked to give the Pepsi's a stiff the toolight.

It is not known at this writing if playing coach Lamir-de has acquired the release of "Wiener" Brown and dis Matricess. R seems Manager Wren Blair of the agrical Provincesc, who also is bossman of the Clinton make, told Learney Brown's release would be forth-

All sales are local—and the best way you can reach the important, well-to-do O.P.D.A. market of 1,620,000 people is to advertise regularly in the dailies listed here.

No Toronto newspaper overflow, no Canadian magazine sells more than a fraction of this two billion dollar market the effective way the local newspaper does.

Local advertising penetration pays off in many ways—more dealer support, more and better sales in these 29 markets where incomes are above average. Advertise in the medium where your dealer spends almost his entire advertising budget. Ask your advertising agency.

Accept Castro's Challenge

Accept Castro's Challenge
Fidal Gastro's recent announcement that he is now a risemch Marnist-Leninist, whatever he may have been in the early days of the Cuban revolution, has provoked a prompt reaction.

Columbia has called upon the Organisation of American States to take action under the countries to countier "brace and political independence, of the American, states that could arise from the histogeneiton of extra-continental powers." If the OAS meeting, Jan. 10, finds Cutta doed constitute guch a threat, Jan. 10, finds Cutta doed constitute guch a threat, or to heighten it by forcing Gubas to rely on "extra-continental powers" for essential trade, is a most problem. nrohlem.

Nobody seems to have considered whether there was any significance in Castro's calling himself a "Marxist-Leninist" instead of merely a communist. Almost all Marxist-Leninists consider themselves communists, but by no means all of them are orthodox communists. Did Castro desire to make a distinction between his views and those of the Russian communists or the communists who follow Mao? It seems unlikely. But there are many unlikely things about assessments of the Cuban situation—not the least of these being quoting Castro's latest words as proving that those who maintained he was not a communist were duped, when Castro himself practically said that at one time he was not Red

Is Stevenson Unhappy?

Is Adia! E. Stevenson, the U.S. ambassador to the United Nations, happy in his work? That is a question which could have been asked any time since Stevenson's appointment. There are, however, additional reasons for asking it today.

In the first place, Stevenson perhaps lacks the temperament for true happiness—through-out his political career he has shown such an out his pointest career he has shown such an acute and constant recognition of major prob-jems that one might wonder whether he is not constantly plaqued with a sense of diseasti-faction at how things are going. Then, too, of course, there is the frustration which any gitted man must feel in being denied the opportunity to text his talents to the full.

ce defeated in his bids for the presidency of U.S., he is now serving under a man who,

This would provide him with a platform from which he could speak his own mind, if it should be that he is not now doing so at the U.M. The possibility that he is not is conveyed in an observation by Ceylones Ambassador G. P. Malalsekera, who says there are apparently two Stevensons, "the Stevenson of the brilliant pre-mises, and alas, the Stevenson of the same old conclusions." Premises may reveal the individ-ual, but conclusions must be official. Perhaps the harness rubs

YOU MAY THINK ALL MAKES OF DRYERS ARE ALIKE BUT ...

You get unprecedented reliability— thanks to the "15-Year Life-time Test" in which Frigidaire Dryers are run day and night to equal 15 years of home use! Every engineering development is watched for weakness that might lead to breakdown during the test — and corrected when detected. Your 1962 Frigidaire Dryer is as reliable as science can make it!

ONLY FRIGIDAIRE DRYERS OF ALL THESE FEATURES!

 Flowing Heat System, so your clothes are dried quickly, safely, by a "blanket of air", with no hot spots. 2. The Exclusive Filtrator, which means no venting or plumbing is need-ed, and you can connect your dryer anywhere — even on an inside wall. S. Nylon Mesh Lint Screen which catches all the lint, and is handily loca-ted on the dryer door, so it's easy to remove for cleaning.

B. Automatic and timed drying. Just match fabric on Cycle Selector to get correct drying time automatically — or set time for special loads.

Also look for: Porcelain enamel finish on the drum; 180° side-opening door; recessed toe space;

Drivers Are Courteous

It is commonly said, in season and out, that a car makes a man a boor, that even the courteous and thoughtful individual loses his man-ners when he gets behind the wheel.

We should like to enter a dissent. It is viction that the manners of motorists, at least in Belleville, are good and are growing

This view is based on a daily experience—endeavoring to get out of a parking lot in the down-town area into a heavy stream of traffic at the evening rush hour-every day.

at the evening rush hour-every day.

There was a time when only the profesionals, the truck drivers, would stop and wave a waiting car into the line of traffic. That time has passed. Svery day, without stal, we be provided to the stall be seen to the line of the properties of the properties of the seen of

the rule.

We are quite well aware that many other drivers will quarrel with our conclusion that driving manners are good and are improving. This will be particularly true of those who, in the course of their daily journey to and from work, endeavor to cross a main artery from a few drivers hall to give those on the side streets the right of way. There is, however, a good reason for this. Sudden stops could cause examend collisions and would almost certainly alow down the flow of traffic on the main streets, where it is already stop could cause ware that the street of t

Meanwhile we shall continue to give thanks to the abundant supply of courteous drivers, while confessing that we frequently catch our-selves falling to measure up to them when an opportunity presents itself to pay them the compliment of copying their courtesy.

The New Beer Bottle

It's a changing world-and we are not sure

we like it. . Rock 'n' roll in place of the blues, jets in place of propeller planes, diesels instead of the old iron horses puffling steam, cars with engines' in the rear and other cars with no gear shifts —all these may be signs of progress. We are —all these may be signs of progress. We are not so sure about the latest change we have sted upon us, a stubby brown hunk of glass that looks like a bottle of hydrogen per-oxide and comes complete with all the familiar

The trouble is most of us have got used to pouring a bottle of beer out of a beer bottle, not out of a stubby glass can which strikes no chord of pleasant memory.

of pleasant memory.

It is said, on the brown dwarf's behalf, that
it keeps beer better and that it occupies a
smaller space. The former contention may be
as true as the latter, which is obvious but not as true as the latter, which is obvious but not necessarily an asset. Generally speaking, the average best dinker sower begrudged the space shis supply of best. It will take quite a few more sputalist to convince us that space is in such short supply, the population explosion notwithstanding, that this alone justifies the switch.

which were a sound to the best of our moving has not that his new bottle is after. The moving has not that his new bottle is after. The moving has not that his new bottle is after. The moving has not the same a weapon appears to be minimal. This, however, suggests the corollary, that what is difficult to swing in anger may also present problems when handled with vivacity unmixed with wrath. The new beer bottle will not be put to the ultimate tost until next summer, when it be the ultimate tost until next summer, when it be considered to the same that the summer when the considered with the same that the same th

This may seem like a little thing, but combine it with the inevitable offence to one's assthetic tasts when brown bottles are left lying on the green carpet of a well-clipped lawn and the result starts to add up into a change for the

worse.

There will arise, we suppose, a new generation which will find the stubby brown bottle everything that a beer bottle ought to be, but it will take considerable conditioning before the old-timers regard it in this light.

Ah, well, perhaps we had better start the process. Pass the opener.

By GEO. H. CARVER, Sports Editor The sports page headlines read: "Flyers Win In-aediate 'A' Hockey Title."

If it is any comfort to the 1961 edition of Royal anadism Air, Force hockey teams the above banner was ritten on March 4th, 1937.

The appearance of the famous "blues" of the BCLE playing in provincial hocker competition the other night, brought notatign to fans of the mid-fairties.

The "Globetrotters", as the current entry in interme-ia hockey is known, are skating in the tracks of a ant crew who brought this city and the RCAF its Oriestic championship.

These were the days when Hiller was marshilling ingions for world conquest. Those were the control to the Control to the Control to the Commonwealth Training Fain. Those were days when from 2,000 to 3,000 people packed Merid Arma to watch a fathital ricked for which a fathital ricked for the Control to th

Over 3,000 jam-packed the arena the night before
the championship headline was written. The Fiverin a graciling overtime contest, eliminated the Point
Edward Redmen to win the title. Later they bewed
to the senior Port Colberne Satiors in the first round
of Allian Curp playdowns.

Manager Group Capiain Tommy Lawrence (I un-terstand he is now an Air Vice Marshal), as rallant sportsman as ever wore a service uniform, was the roudest man in Ontario that night. So was the late quadron Leader Van Vilet, the coach. Flying Officer ulton, the treasure, was near delitious with 507.

How that you yet his light mass in front of the blasting drives of the Redman is still a source objected or in and of the pricts. He was territo almost to the pairs of turnicitality. There were other hereas perhaps, in aligntly lesser gait but whose foam efforts contributed greatly to the intents victors,"

The bulwarks behind the blusling who gave Gibson plenty of protection were hig blonds Johnny Lalonds and Stan Partridge.

The Flyers' starting line of Frank Lowery, Dan Cowley and Ernie McNesley perhaps shaded the other trips but not on an appreciable extent. Louis La-Compte, Eric McNesley and Roy Laing did not weaken Flyers' offensive power. Other players were .-Harris. "Simon" Legree, Beck and Wingste.

The victory culminated a great season for the Fiyers. They defeated Peterborough for the group crown, ank Gananoque in the first playdown round, crushed the Teonito Poulisce in the second and then Point Edward for the title.

The Trenton station, as always, had a splendld band th was in attendance at the games. At the tituler the band director, a flyony with a sense of humor, his crew offer timely sound effects.

Ecfore the game, muted Instruments played softly, "Just Before the Battle, Mother," The referee, 'Army' Armstrong of Oshuwa, was grated with 'For Hi's a Jolly Good Fellow," "Hall, Hall' socnaded when the Firers stopped on the lot. When a Point Zebrard player butt-mided Eris McNetsly in the ribe the band offered strains or 'Two Got Yew Under May Shim."

...get big car performance with compact convenience

Don't putter about in an underpowered car. Get responsive handling, get convenient size and get the power you need for safe travel on modern highways. Only Lark gives you all three. The new Lark with all the brute power of its V-8 and Skybolt Six engines, is as nimble as a sports car, as easy to park as a compact. Economy is another Studebaker plus, as is "family-size" interior room and graceful, tasteful styling. Let the spirited Lark put the thrill and fun back into your driving-test the Lark today. Sport Slices ...

RARE, MEDIUM, WELL-DONE By GEO H. CARVER, Sports Editor

For insee critics of sport and wholesome recreation and believe it or not, we have them in this city, who commistion, because of a self-constructed small perim-eter, the all-remaind benefits of rames and suits. We intuitive that it is the community of Presidents who whole, here are some excepts of the control ter-metry's speech to the National Foundation Ken-metry's speech to the National Foundation.

ng it is noted that Prime Mi nd the Canadian government recognize the need for articipation in recreetion and have set aside five million ollars for a national physical fitness program.

President Rennedy and that of some six million Americana examined for milliary daty, over a million were rejected as physically until for duly. "A good many of these men," he said, "would not have been rejected if they had had the opportunity to take part in adequate physical development programs."

"I find this situation highly disturbing," said the president. "We are under-exercised as a nation. We sook instead of play, ride instead of walk. Our punb-button existence deprives us of the minimum of phy-al activity essential for healthy living."

"And the remedy, in my estimation, lies in one di-tion—that is, in developing programs for broad par-pation in exercise by all our young men and women."

"I do not say this to deery excellence in sports or anywhere else. But the excellence emerges from mass participation. This is shown by the fact that in the Olympic games we are steedily falling behind the nations which stress participation in a great variety of sports," said Mr. Kennedy.

Canada is not falling behind. We are be saintaining the low level that has characterized Dympics' efforts over the years.

"But," the president pointed out, "there are more occurs goals than winning the Olympics—and one of memorying the broad level health and physical sitty in the nation."

Mr. Kennedy said the United States has begun to the progress towards this goal with the president's noell on youth filmes. The program is designed to a se many boys and giths as possible the chance for lithy physical development.

RARE, MEDIUM, WELL-DONE By GEO. H. CARVER, Sports Editor

When Jean Paul Lamirande mentioned the matter at first I mentally labbed him as a visionary. Subsequent conversations with the Pepuis playing conchains one of the players—reveal the likeable guy as a realist.

And don't send for the guys in the white jackets, a Paul has set his hockey target, circa 1941-63— I II—the Allan Cup. Go ahead and latigh if you will. There is a pos-ibility, irodic as it may sound, that such a thing ould happen—that history could repeat itself.

ould happen—that history could repeat inself.

Nor. is, it bryond the relate of possibility that
amirands could field the majority of the players that
see the world championable in 1939.

Riding home with Lamory, the other midspiring after
Peptis-Terotion Flyers game, the native zon or Shawpan Falls expressed the hope that the way could be
of the Bellevich participation in Allian Coup playord for Bellevich participation in Allian Coup play-

Lammy three-back his heed and isrughed as the big car rambled through the midnight darkness. "If my, Allan Cup dream materializes," he said, "and we are granted permission to compete, I think I can talk like Hildebrand into joining the squad."

That would give the 1961 Pepsi's ten members of einb that won the world titte in 1853, to wit-relay, Lamirande, Bolty, Crawford, Goegaa, Jones, eDonald, Smrke, Brown and Hildebrand. And you add Marticola.

Liconi Bolly, who with Floyd Crawford played the Trenton ECAF Globetfelters against the no Cippers of least year, the Galf Terriers, in an ibiden tils recently, said he want impressed with precent streamful of the Terriers. Of course they add considerably before their Jaans to the world hoppiechips.

Said Lions: "The old Mace could have beaten Terriers hands down. And if that is the club that the 1949 All Cup, I think the Pepal's with the hands back stand's good chance to repeat."

29 great whiskies in one brand

Years ago Adams distilled 29 great whinkies, each with its own distinctive characteristics, and then aged them in special cak casts. Now, Adams has married these 29 rare whinkies to create the super-flavour of Adams Frivate Stock. This custom blend is presented in its crystal desanter at a popular price.

Labor Leader's Significant Talk

One of the more significant addresses of re-cont weeks was that delivered last week by Wilun Dodge, executive vice-president of the Canain Labor Congress, to the AFL-CIO convention at Bal Harbor, Florida.

Its significance lay not so much in what Mr. Dodge said as in his reasons for saying it — and these reasons were not defined and can only be

What Mr. Dodge said was that Canada is an independent nation, that his audience should not independent nation, that his audience should not expect Canadians to reflect American viewpoints on international affairs and that, by inference, the AFL-CIO members in the U.S. should not expect their Canadian colleagues to conform to all the opinions and policies of the central body. In part Mr. Dodge may have made these statements for the benefit and information of the

neople he was addressing people he was addressing.

We cannot 'seeape the conviction, though,
that his words were partly for home consump-tion. There are a great many Canadians who are not disturbed to see a Canadian factory for-bidden by its head offlee in the U.S. to sell to some customer abroad, but who are annoyed and aiarmed if the Canadians employed in this plant vote, of their own free will, to affinite with a nulm whose head offlee is in the United States. Mr. Dodge may have been trying to persuade these people that Canadian unionists are Cana-dians first, and members of a U.S.-based union

The speech, however, contained another significant reference, to the formation of the abor-hacked New Democratic Party, American minions, craft of industrial, have stuck, almost without exception, to, the policies framed by Samuel Gompein in Another age and have reasonable. The dates involvement in politics as undestrable. The dates involvement in politics as undestrabled, the control of the control of the policy of the Strictly Personal of politics is no business of union officials south of the border. He asserted that Canadian unions intended to use "the political arm in a way dictated by the political system by which Canada is governed."

is governed; by which Canada governed; by which Canada From the Associated Press report of Mr. Dodge's speech, necessarily short, it is not clear whether he spelled out the differences between the U.S. and Canadian political systems which, the U.S. and Canadian political systems which, the U.S. and Canadian political systems which, the U.S. and the U.S.

approaches to politic in the two countries.
It is, however, eavy to suggest what he said,
or what he might have said. In the U.S. labor
traditionally beside candidates, or whatever
party, who will indicate their willingness to support above "objectives. In the U.S. there is virport above "objectives. In the U.S. there is virof Representatives or the Senate. In Canada,
however, a member of Parliament generally
votes not as his conscience dictates but as his
party caucus decree, a Pi follows that in Canada
a plosige of support from an individual member
to influence has whole party spectrum — and
this is much more difficult than dictating to
an individual member how he should vote on
an individual member how he should vote on an individual member how he should vote on any issue. It follows that the U.S. method of supporting individual members is far less efsupporting individual manners is far less fective in Canada, or in any other country, such as Britain or France, with a similar parliamentary system. Ferhaps, that is why Canadian unions which have their head offices in the U.S. are nevertheless following the British, rather than the U.S., pattern in the field of politics.

a hockey Canada's great national winter pastime its alline for the sports public? Apart from the nal Hockey Learne centres attendance has de-ed to an alarming rate over the past two years.

And apart from the Toronto Maple Leafs and Montreal Canadiens, other clubs of the major league have not been playing to capacity houses in any degree of consistency.

The minor pre loops, despite the frantic efforts of folio relations does are feeling the pinch at the box for. When they do draw good gates, the figures are educated. When vacant pews yave only the score and salties are released in the public prints and on the

The Kitchener Auditorium Commission is plaim-poken about the situation in the Twin Cities. J. W. toots, auditorium commissioner said publicly the other ay that he feared there work to say per hockey in Kitchener next year unless the Beavers pick up a lot

Part of the reason attendance in Sault Ste. Marie is low figure is because it has been noised around the part of the stream of the same and speaking of the situation, you hear the name "Belleville in 1963" men-sed often.

An Oliawa newspaper published the story a few recks age that the Hull-Oliawa Canadiens drew some-shing over 1,000 fans at a game where a couple of auto-nobilies and other prizes were given away. At Sudbury he other night, according to the local Size, tess than 40 mer the Wolves play.

The Pepal's have falled to draw over 500 at their home games to date. However, some believe that the Wednesday algith dates have some effect on attendance since Belleville has always been a "Friday Night Hockey Twum." Also its reli the dellar price of admission is a sittle high.

The Belleville junior McFarlands are not attracting any bumper crowds either, and they have the Friday night spot as far as dates are concerned. They average, it is estimated, loss than 460, Kingston is no better, if as good. The smaller centres, however, are said to be

It is interesting to note that Britain and Rusals were occlusimen of this conference, now drawing or occlusions of the conference, now drawing direct interest in the area, yet because it is location near the "rice bowl" of class. Lace has considerable strategic importance. One wholly monofitmed, but highly interesting, speculation, has been that Rusals's intervention in this great has been unfountly aimed at my considerable. specialiston has been that Russla's intervention in the area has been primarily almed at preventing Red China from infiltrating the whole area and glaining control of it. This suggestion appears more credible today, with the breaking of displomatic relations between China-backed Communita'. Albania and the Kremlin, than it did when first advanced. did when first advanced.

ntally, the same day which brought Indicintally, the same day which brought reports of the spersena to Generae on troop withdrawals from Laos brought other news. from the area, U.S. pullow Mill 97 combat missions in neighboring South Vietnam, against the combunate Cong forces. Although these "combain insistons," will be in helicopten, hardly an alfact-type arearty, they, involve a heightenism for tention in South Vietnam, good for the condition of tention in South Vietnam, and the Carlotton pole is cooling from a facilities we have the condition of tension in South Verman, just when an Isation pot is cooling down. Sometimes we see the whather there is a deliberate attempt in maintain tension—and if so which side is responsible—or whether it is just a case of news-

responsible—or whether it is just a case of news-hunting correspondents, finding no action in one location, moving on to another and report-ing some incidents which, but for their presence, would have been accepted as little more than a change in routine.

What Now for Eichmann?

Adolf Eichmann has been found guilty by an Israeli court on fifteen counts, twelve of

by an Israeli court on inteen counts, owere or which carry the death penalty.

'The verdict of guilty is not surprising. It is difficult to see how any court could have found otherwise, sithough there may be no similarly virtual manimity of opinion on the question of the competence of the Israeli court to be Schoman. to try Eichmann

to try Sichmann.

The most intriguing question, however, remains to be answered. What will be the punishment phich the Jews will mete out to their oppressof? Sentence will not be passed until Friday, If Elchmann is condemned to death, and if the sentence is carried, out, there will and if the sentence is carried, out, there will contend that and if the sentence is carried out, there will always be a minority who will contend that revenge, rather than, a desire for justice, moti-vated the Izarella. But if the Izarell authorities should dramatically grant Eichmann that mercy which he refused to so many millions, then indeed would this be a trial to remember down lirough the years to come.

RARE, MEDIUM, WELL-DONE

By Geo. H. CARVER, Sports Editor A tip to the bockey wise. Don't miss tonight's puck duel between the Uxbridge Black Hawks and the Believille Pepsi's.

Hockey-wise these Etcher-led ice-lane buckaçoos from a pretty community northwest of Whitby have no barley-ards in their socks nor burdocks in their underwear.

There is plenty of flashing speed in their skates and hone Jarring joils in their blg bodies. The puck to them is not a postage stamp to be stuck in a corner. They know where it belongs and they have the ability to put it there.

According to Arnold Etcher of Bowmanville, the gue statistician, Napanee is now leading the loop with points. Eight of these were acquired through double orders over Bowmanville which were worth four points h. These teams play a home-and-home series only.

The Pepsi's and Uxbridge are tied for second place with len points each. Our side has five wins and no losses. Uxbridge five wins and one setback. Back on November 26 when the Pepal's trekked to Uxbridge for the circuit-opener, the Hawks apread their wings, unclenched their lalons and gave our side a busy twenty minutes before the game was called because of a hole in the ice near a goal-line.

The Hawks had the better of the play during it session played and led 2-1 when the period ende the game called.

Tredde Etcher, ex-Whilipy Dunlop, play-coaches the Hursk and he has got himself a bir, husky, fast-acting learn that should make the Pensits give all they've got tonight. They have besten Napauce and the Trenton Tyrex and it looks like tonight's game is the first test between the two top clubs of the

Jobless Figures Encouraging

Unemployment figures for mid-November, released Tuesday by the Dominion Bureau of Statistics, provide what a probably the first reason for optimism in almost two years.

Statistics, provise what is processly too are reason for optimism in almost two years, are reason for optimism in almost two years. True, for these previous months the armonia for the province months in 1900. That alone, however, was not of any great encouragement. What gives the November figures special significance is that the increase in unemployment since October was unmusuly small. If we request this as estinging the trend for the suited parts of the province of the province of the province of the province of the past few winters.

The 31,000 increase in the number of unemployment from October to mich-November is the same time shall year. Morrori, there has been a 66,000 increase in the state of the labor force. Adding these figures together, we find that there are 128,000 more Canadians employed now than at the same time a year ago.

now than at the same time a year ago.

in the control of the However, some reservations must be made the Prairies. But the Maritimes labor force was up only 1.3 per cent, or 6,000, so that the increase in the number requiring jobs is not a domplete explanation of the failure of the a compete explanation of the lattice of the Atlantic provinces to keep pace with the central provinces and B.C. Quite evidently special at-tention-needs to be paid to the problems of the East Coast and Frairie areas.

Inexperienced

After an argument with his wife, Texan David Emmett Mitchell stole an airplane and flew it in a dense fog for four hours. That he survived to tell the tale is remarkable for two survived to tell the tale is remarkable for two reasons—he had had only four hours of flying instruction and he did his flying in the flight pattern of the bury atrilarest "alprot at Dallas. It is worthy of note that the unhappy pilot is only 20 years old. A man with more martial experience would have known it is not east to get up in the air over every argument with

to get up in the air over every argument with the little woman.

For safety's sake, Dallas might consider changing the name of its airport. It is known as Love's Field.

Foxy

The Federal Department of Agriculture has announced that, as of Friday, a stamp will be available to label Canadan white for pelts with the word "Canada."

This is aimed at preventing the Russians from selling their white fox pelts as products of

this country—
Retaliatory action may be expected. The
Russians, we suggest, may lasue a stamp to
prevent Canada selling red fox pelts as products

Fox pelts would then be divided neatly into four classifications, White white fox pelts, Red white fox pelts, Red red fox pelts and White red fox pelts. That way only the fox would get skinned. skinned.

Features of the new Ford car... TWICE-A-YEAR MAINTENANCE!

Spring and fall—that's all for the average driver. Ford's famous built-to-take-care of-itself features make it possible of-itself features make it possible-features that eliminate many normal serv-ice calls. You go up to 30,000 miles between chassis isobrications... normality 6,000 miles between oil changes. There's a new 30,000 mile or two-year radiator coolant. Brakes dijust themselves—auto-matically for the life of the lithings. Mulmatically for the life of the littings, Muf-fiers are double-wrapped and aluminized to list up to three times as long as ordi-mary matifiers, Allvisia underbody parts are specially processed to resist rust and cor-spoint—oven the body puncha beneath the doors are galvanized; its Dismond Lasten position—oven the body periodic protection of Laster doors are galvanized. Be Dismond Laster finish never needs politicing. Ford Dealers give a 12-month or 12,000 mile transmit, whichever comes first.

Some Taxation Questions
Terminer John Robarts, who is also Ontario's minister of education, has amounced that in 1983 elementary schools will receive a tax sentiance grant of \$10 per pull instead of the \$132 originally planned. More interesting than this increase in the padd—the school board or municipal: council receiving the grant must reduce the tax rate for home owners and farmiers to a level a full ten per cent below that applicable to commercially properly applicable to commercial properly applicable to commercia

This two-level system of real estate taxation that it already in effect, but here we see a dustine hint that Premier Roberts and the manders in his catasite and a rever greater extent eventually has a the sen per cent figure made obligatory of the full beneath of provincial grants is to be enjoyed.

This raises an interesting question, a question state of the carried of section of the self-order of the section of the self-order of the section of the self-order of the self-ord

Pity faculty members of McGill University have sent a letter to Prime Minister Diefenbaker criticizing the government's policles on the Ber-lin crisis, civil defence and nuclear weapons. On civil defence the latter said: "We believe

that your civil defence policies encourage com-placency with regard to Canada's ability to sur-vive and to defend herself, and hysteria in response to problems presented by the Commun-ist powers."

Personally, we have had a rather low opinion refrandily, we have had a rather low opinion of failout shelters, survival courses and the other manifestations of the government's civil defence problem. However, after reading the McOill famility members' appraisal of it, we find outsieves forced to revise our judgment. Any policy which can, at one and the same time, provided the completency and hysteria bears all the earmarks are completency and hysteria bears all the earmarks.

Antidote to Notting Hill

Michael Moynihar, in an article in the Peterborough Examiner, says "it has become quite the fashion to include a black chill in your pram" in certain districts near London, England. These bables are the additions of England. These bables are the children of African students; most of them are not being adopted but are merely placed in the care of foster parents while their own parents complete their studies.

This is the best antidote to Notting Hill of which we have heard. Moynihan wonders what effect an English up-bringing will have on the children of many of Africa's professional classes of the future. It can hardly be an evil on the children of many of Africa's professional classes of the future. It can hardly be an evil one. One would like to know, too, what effect the emigration to the Deep South of a few of these English foster-parents would have on the Jim Crow lessy of those stakes. Why do not "little black bundles with big appealing syss" create as warm a reception in Missatspip and Alabama as, in Kent and Burrery?

Virtue should not exclude 'cakes and ale,' and II it tries to it lant's thrue but repression.

What virtue should exclude, however, is excess, for virtue if it imeans anything, means beautiful and harmonious belance.—Novelist Pearl Binder speaking in a BBC broadcast.

The place of charity, like that of God, is srywhere. Francis Quaries.

Vitamin Samples Cut-Off

Vitamin Samples Cut-Off
The Montreal Star says major drug companies have quietly alabed the prices of many vitamin products, the price cuts attemning from Age experimental program to reduce free-sample campaigns. A federal inquiry in this country attemned that some of Camplain companies spent being products to decions, hospitals and clinics. One company has dropped its entire program for vitamins. Testing of new drugs by doctors, hospitals and clinics would appear to be not only desirable but essential if there is to be much demand for them. Could it be that the sharmonia of the companies of the country of the cou

RARE, MEDIUM, WELL-DONE

By GEO. H. CARVER, Sports Editor A "bunch of the boys" were talking it up at a verbal the other day, and strangely enough, with hockey triking lots of argumentative fodder, the tonsils turned asseball.

Forming the main themses of the 3sw-Jensberes re the Yankeer Big Mr.—Rickery Manils and Every rits. "If the Molk is worth Strike is the Breatz unbers, Marie should be worth the 375-56 sub-ling," was the consensus of that covey of the thing," was the consensus of that covey of the thing, who have been betting the Yankees since the end the Civil War. True, the Mick has surpassed the \$80,000 salary the mortal Babe collected in the late twenties. In fact, ording io Yankon general manager Roy Hemey, the de "will draw a little more", making his seasonal que \$85,000.

But it should be momentaged in the days of the Easting Twenties before Golham's Wall Street laid its famous egg, the federal tax meal was a mere mibble and basabill immortals with the playbors of the era were lighting chorines' cigaress with \$100 bills.

Egrs were a dime a dozen and choloe steak seld at two pounds for a quarter in the Babe's day. You could bur a brace of chicks, the feathered kind, for a dollar, and if you hung around a city market after closing time a frustrated wonder would likely fell you to take a bag of spuds home for free.

Today if you get up around the \$40,000 salary mark the "infernal revenocers" don't nibble at your settless, they sit down and make a hearty meal. What the 7-Boys will take out of Mick's meal money and that of Maris would make a nice down payment on a trently-lane bowling alley.

a weenly-knee county and and a superior the Mick. He is now a second highest salaried player in Yankee history of the Mick isn't satisfied. He has his sights set on using that \$100,000 the Bombers paid Joe DiMaggiothen he retired ten years \$50.

The Raish increased his salary from \$16,000 to \$36,000 in the short span of two years. If he gets he \$15,000 in 1963 (he'll probably settle for \$45,000), a will have set an all time record in salary helets.

my you navy see an an time record in mainty holds.

His rush up the Indder he here piecesterment, unhard of in baseball circles. Maris hid 30 roundtripper in 1804. He 'clouded 61 last year. Figure 18
out, If he receives his \$75.000 each one of those 21
hours; (the difference between 35 and 43) will have
been worth \$1,564 each. Not had for less than a minute's worth.

Only the Whites Will Listen

India has moved to selse the few last remaining square miles of that vast sub-contin- what ent which have been still under the centrol of a streem colonizing white nation.

Her invasion of the Portuguese enclaves of Damao, Diu and Goa has been greeted with almost unanimous denunciation by the demo-cratic nations of the West, and with applause from communist lands, with the noteworthy exception of China.

RARE, MEDIUM, WELL-DONE

By GEO. H. CARVER, Sports Editor

Lammy Lamirandes Fepti's who have been keep-ing in condition in a week's layoff, with practice grinds and foot-slogging up and down store alides questing Christmas precents, clash with the Bowmanville Shamrocks in a jeague tussie here tonight.

An unexpected feature of the Popsi's last appearance against the Black Hawks of Untridge was the presen-tation of the Bulldoor that wears skates and plays hockey like a man, Eddle Marineau.

Zelfo was used on defence last week and he stood out like a bustle on a downgrr's poop-deek. His rushing brought the crowd to its feet and Eddie obliged by socing one goal and helping with a pair on the night's work.

The Pepal's have an unbesien-united record of six, good for 13 points, but, as far as can be ascertials they are tied for second spot with the Uzbridge crow which defected Trentes Figures the other night. Napanes also took the measure of Port Hope the same evening.

The stardy effectiveness of the Fepal defence is important to the first scoring records. To date they have rapped home fifty roads and had ten secret against them in a half-dozen outlars. "Ther" Barrallo and the secret against them in a half-dozen outlars. "Ther" Barrallo must for 150 goals soored against him in four the secret and the secret against him in four the him in the secret against the secret to the secret to

nored against it.

Davy Jones and Gary Goyer are two other definite mentre threats of the club. Davy has sunk eight good d ansisted in 18 others, while Master Goyer has his with three times but helped on 15.

Flori Gosgan, who has been playing the best skey of his Belleville career, has accounted for three is and assisted on a dozen others, to lead the troce corps, tallying by a wide margin.

Flord Crawford has a mark of four goals and assists, while Lieuci Botly has a single goal a halfadosen helpers. "Ole "man River", Lamire, who 'kceps rolling along with the club, so far been credited with an assist, Gord Irwin has two

Back to the offensive platoons, Rennie Hull has up with a nest seven-goals-five-assists mark, youthful Tom O'Mears has accumulated 5 goals and rassists. Check Rowbotham has a goal and three rs to his credit.

At full strength the club has a definite senior po-tential. You cannot perhaps teach old dogs new tricks but you may have a helava time getting them to forget the old ones.

Their first-period passing plays the other night against the Unbridge Black Blacks were reminiscent of the good oil "midrataned skays". They were eliciting beautifully and the Pepil front lines, shurfled nicely as they were py acting coach Lionel Botty, were at-most poison in front of the Hawk nets.

Tonight they meet the Bowmanville Shamrocks for first times. They pay a return visit to Bowman-tomorow night, according to the schedule.

Need a New Look at Competition Imperial Chemical Industries, biggest firm in the British Commonwealth, has decided to make a bid for Courtaulds.

make a bid for Courtaids.

There is more to this than just another merger of firms with allied interests, because the reasons advanced by Imperial Chemical Industries for its take-over bid frankly acknowledge the motives behind many other similar amalgam-

Says Imperial Chemical Industries: "The Bays Imperial Chemical Industries: "The man-made filter industry in this country (Britain) is mainly in the hands of three companies, ICI, Courtauls and their joint company, British Nyion Spinners. The duplication of effort compares unfavorably with the conditions in America and in continental Europe where there are fully integrated producers covering the whole range of man-made filtres."

In other words, what Imperial Chemical In-dustries wants is a monopoly—or the closest thing to it that it can achieve.

uning to it that it can achieve.

Combine is a dirty word on this continent,
Canada's anti-combine laws result in frequent
prosecutions, but Canada's surrellance of monopolies in industry is lax compared to that undertaken by the U.S. under anti-trust laws.
Some other countries, though, look upon cartels

in a different light.

One of the great virtues of the free enterprise, system is supposed to be the fact that free competition will not only automatically result in goods being offered at the lowest possible prices, but that this competition will also provide the attunuius necessary to make firms atrive constantly to improve the quality of their processions and the provide of t

Now Imperial Chemical Industries deplores "duplication of effort." Before we dismiss this view as merely the voice of greed, we might reflect on the great change in economic condi-tions since the theories about the value of competition were formulated. Perhaps today, with the vast investment required to get any modern industry into production, and with the great productive power that such an industry possesses when set up, there is something to be said for avoiding duplication of effort in certain specific fields. Economists without any pre-conceived conclusions might re-examine the concisted conclusions might re-examine the whole question of combines and monopolies. Perhaps in the interests of efficiency they ought to the permitted in certain fields. It is obvious, though, that in such an event some form of governmental control over quality and prices would have to be devised to take the place of the submatic control which, in theory, is provided by free compellition.

Heroes Wanted

Heroes, according to one series of cartoons
we have enjoyed over the years, are made not
born. It is because of this fact that we often do
not know who is a hero until such time as cir-

not know who is a nere until such time as cir-cimstances and his own actions make him one. When an individual does do this, however, it is most infrequently this there is any recogni-tion of his deed. His act of derring-do is related in neither song nor fable as were the deeds of the heroes of ancient Greece. He is not knightthe perces of ancient Greece. He is not kingled ed of recognized by royal favor as might be a hero of the Middle Ages. In fact he might not even get a single line of copy in his local news-

paper.

In short he is altogether the very perfect example of the unaung hero. We suspect that this is not due to the fact that there, are so many of this type of an individual abody that deeds of heroism are too commonplace to be worth noticing. If anything, the converse is more probable.

If would seem that Canadiana are guilly a would be a supplementation of the control of th

at least, is the consensus of the Carnegle Hero Fund Commission people. The sadministrators of an endowment fund set up to recognize the homeomy and the commission of the con-cept people of the commission is approx-imately 90 annual awards. Instead there are but two or three awards made in Canada yearly. Mr. David B. Oliver, manager of the com-mission feels that there is a number of natural, would like to bear of them, and so would we would like to bear of them, and so would we

unrecognized neroes in Canada each year. He would like to hear of them, and so would we, so that they might receive some small recognition of their deed. Anyone, excepting members of the armsel forces or one who saves a relative, is eligible for recognition under the terms of

So if you come across a hero you should get
in touch with Mr. Oliver at the Oliver Building,
Pittsburgh, Pennsylvania, if you want to see
your hero recognized.

RARE, MEDIUM, WELL-DONE

By GEO. H. CARVER, Sports Editor

A weet old lady, an all-out affect-haired nature lover who dereits hundres and habrames and what they do, said the other day. "It's too had some of those animals and that cames give these blood-thirty; handers, and fish-hungry angiers a taste of their own medicine."

In other words this delightful champion of the wild hid like to see a bull-moose turn up in a forest glade and with a shotgun and blast the bejabers out of a poor te innocent bunter who has a yen for wendering in the ods on late autumn days, and yearns to justisfy a ventson-

Fortage the powers hat he sheeld arm the fer-ocious maker with missiles. Or tools sweetfals feeding. Take that angier down Cernwall way a year or two age. He hooked and landed a sizesble muskle. His girl irired as a searby danging her red see-allied tootsies in the cool water. Sugdenly ahe shricked and leaped to a foot clitching the other in her hand. A muskle had seen his favortic color in the water and decided to take a tubbe. He cook off, almost half a

Then there was Mr. Golo, a Japanese fisherman, owas sitting in his best in Tokyo Bay. Along comes do-pound fish. Mr. Golo promptly sides a six-foot poon into it and drary it aboard. The mentary factors, march Mr. Golo over the bearing port side.

Golo chose the, sixthoard side for his dive.

And don't underestimate the jack rabbit. Leo Mon-7, a crop-dusting pilot, was fiying about five feet we a cropped field doing a spot of dusting when a big k leaped in front of the plant into the propeller. Mon-y was not injured in the crash.

Benoti Carion, a bush-pilot, was cruising along his ship when a goose smashed through the wind-ield asid pecked him in the smout. The plane made immediate unscheduled landing.

Over in South Africa a fisherman made wisocracks ut an ostrich and its heast in the sand. Later-he was ried over and viclously attacked by one of the big ilings. Probably the boss of the union.

A Grand Junction, Colorado, hunter was shot in the by his own bird dog. The animal resiched the front and accidentally pulled the trigger. Mrs. Alice Mc-lott of Chicago was knocked through the open third-or window when her favorite lap dog jumped in her lap, landed on her bustle in soft earth.

A Baltimore hunter developing car trouble took his omobile to his favortice service sistion. It was slug-b, he said and seemed like it wanted to lie down it die. Squirrels had stuffed the ear's air filter full hickory nuts.

when spill open and densed the fire.

But this fisherman per the daddy, grand-daddy and patriarch of, all piszotosis hanks, so to speak. He was eastlap from a Saula En Enlirod bridge. He founds his limb in the railways new azienstic carbonic control grainen. There was a short circuit. Every blotd-dariant on the 187-1816 objects the railways need order out. Every texts including the Saula Fe Chief, stepped dense.

Similar But Not Identical

In New York on Tuesday U.S. Ambassador Adlai Stevenson told the United Nations Security Council its failure to approve a resolution asking India to withdraw its troops from three Portu guese enclaves "could end with the death of the United Nations.

In London the British Foreign Secretary, the Earl of Home, told the House of Lords the United Nations role in the Congo could reach a point where Britain would have to withdraw its support from the United Nations.

Russia vetoed the resolution requesting India to withdraw its troops from the Fortuguese enclaves and Stevenson charged that support given the Russians' stand by other countries seemed to indicate these countries are true. indicate these countries were trying to rewrite the UN charter to sanction the use of force when it suited their purpose.

when it suited sner purpose.

Tord Home In Condon said that if the UN
switched its emphasis from peace making and
security to stepping up independence and the
elimination of colonialism, the organization
would be in danger of becoming "political and
partisan" and this "would sow the seeds of its
more destination. own destrict

own destruction."

There is a striking similarity between the theme of Stevenson's remarks and the theme of Lord Home's observations, although they were speaking about different incidents.

In effect, what they are both emphasizing is

that the United Nations was formed to prevent the use of force, not to utilize force itself or to condone its use by others in certain circum-

There is, however, one great difficulty which must be aumounted in winning support for this argument. Any policy which eliminates the use of force under any and every circumstance is a policy doomed to do no more than support the status quo, unless some other means than armed force is discovered to compel nations to abide by the decisions of the UN.

When the United Nations was formed, in the unrealistic atmosphere of comradeship and unanimity which is engendered amongst allies unantumy which is engendered amongst allies who have only one great objective, victory over a compon fee, it was possible to believe that nations would how to the wishes of any clear-cut majority of, the peace-loving-lands of the earth. Events have proven otherwise.

The UN has a long list of failures to win

compliance to its wishes without the aid of force.

It was obliged to go to war in Korea.

It could do nothing to prevent the rape of

Hungary by Russia.

manner in which nie UN force sched in the Gaste. Strp and the manner in which, after 18 months, it has finally acted in the Congo. But, even if we ignore the difference in the situations, the recent UN actions in Katanga are the logical developments of this idea of a UN police force. To produce results, it must have the right to use

To produce results, it must have the right to use forcy if necessary.

*Lord Home appears to object to this development. But it is the only way in which, in the long run, the use of force by individual powers such as the respot of to arms by Indis, can be grewented. Thus, in the final analysis, what Lord Home is saying and what Adal Sovenson is saying are not necessarily the same things, One is proteining against the use of force and the contraction of the UN. There is a change though that the similarity of their conclusions may result in their arguments being considered similar, or even in their symmetric being considered similar, or even in their symmetric being revised until they are similar. There is even the possibility that Runsis may be read we have been precised until they are similar. There is even the possibility that Runsis may be read to the contractions of the contraction of the c is even the possibility that Russia may be re-garded as supporting the logical development of a UN police force because she support India's right to invade Gos, when the record shows that in fact Russia has opposed, and has refused to ahare in the cost of, the operation of UN police

RARE, MEDIUM, WELL-DONE

By GEO. H. CARVER, Sports Editor

Lust whiter this city received a well-deperted put on the back from the Department of Northern Affairs for its generous co-operation in helping to provide skates for Eskime school children.

Betileville citizens donated 200 pairs of skates to the 3.000 pairs that were "raised" in all Ontario. Over 200 skate-happy young Eskimos have saluted the Old Lady of the Moirs.

But the Ontario denation, generous as it was, did suffice for the general need. This year, some 2,598 or a are needed to bring happiness to these youngsters he northern tundras.

King Whyle, well known televisies outdoor per-sonality, is again beading the drive to raise the required number of states. He will be assisted in the all-reund effect by the Cities Service Oil Company, the CCM Skate Company, Ground Gyre Club, the ECAF and civilian airlines.

The Cities Service has agreed to collect the skates at their stations. The CCM will sharpen them and the Gyro Club will pack them. The various atflines will fly them to their northern destinations. All for free.

Lois of kiddles in the city and district will be guiting new sixtee for Christmas. So here is a fine outlet for the old ones. If you have no further use for them, remember the skateless Eskimo youngsters of the Canadian porthland.

So when the fun and frolic of the Christmas season is r and you take stock of the presents and what's left r, if you have a pair of kiddles' skates please notify r nearest Cities Service station.

BELLEVILLE UNITED APPEAL "GIVE * THE UNITED WAY"

Dear Fellow Citizens

BELLEVILLE, ONT.

LODE OR STREET

I am sure the hundreds of Belleville citizens who helped and contributed in one way or another to the success of our recent United Appeal Campaign, did so because they realized its importance and acted as only good citizens would. One can not help but be impressed by the generous response made by many persons in every walk of life.

No words of mine can adequately express thanks to all the contributors, the workers and to anyone who in some way helped to raise almost 85 percent of our objective. In view of the many capital funds projects in our City this year, this result together with the fact that it exceeds that of last year is a most creditable achievement. Belleville's eleven United Appeal Agencies will be able to continue

their vital community services in 1962. This being the time of good-will towards men, our Board of Direc-

tors join with men in extending Season's Greetings to all the people of Belleville. May the coming year bring happiness to your families, prosperity to all and peace and good-will to mankind, Sincerely yours.

What About Voting Machines?

On the whole, though we consider the United States the second-best neighbor in the world (top place is, of course, reserved for Canada), we would not class ourselves as an honest-to-goodwould not class ourselves as an honest-to-good-ness, red-blooded admirer of hundred per cent

Nevertheless, there is no sense in ignoring the obvious or refraining from instituting worth-while reforms just because such changes would be patterned; after methods followed south of border.

One of the things which distinguish Canadian elections from those in the U.S. is that voting machines are used there, while we stick to the cld-time lead pencil and, the counting of the crosses made on paper ballots.

This may be changed. Premier Jean Lesage of Quebec is reported to be toying with the idea of introducing voting machines in his province, as part of a campaign to clean up the notorlously disreputable conditions which too often surround ms there.

Another obvious abrantage of the voling manufacture of the total part of the state around the suggests whe in Robbiologic Township, Metropolitan Toronto, on cockell loungest Judge Robert Ferryth has ruled that the first task will be to consider 2,665 rejected hallous Since the cockell lounges received 39.727 per cent of the total vole, and depte a 60 per cent margin would have won them supplyral, the remain of the election could easily be placed, by this freedprish and have diministed fisher modern, entirely. It is impossible to greate it it as manner which leaves the voleta, marginest with the problem of the companion of the control of the co Another obvious advantage of the voting

where there are many more voies to be counted than in Canadian elections. Perhaps we ought to consider borrowing them from our cousins.

Valuable Cargoes

Next to education, transportation is one of the major headaches of bodies burdened with the responsibility of providing our society with exemital services.

the cost of highways has climbed steadily, as heavier and faster vehicles and increased traffic have demanded ever better roads.

The average-eitizen, though, never stops to

alize the vast amount of wealth which is moved

over these roads. Any busy city street will be used daily by automobiles whose aggregate cost would be sev-eral millions of dollars.

As for trucks, and the value of their cargoes, must reach astronomical figures on any

these must reach astronomical figures on any main highway.

Last week there were two items in the news which illustrate that fact. On Highway No. 7, east of Peterborosigh, a transport trailer caught five. It was loaded with mixed freight worth nearly \$10,000. But this load was outclessed by that of a van higheded on Highway 401 near \$60,000. Gigest's should be \$0.000. Gigest's worth \$0.0 would be another eago in which the value of a truckload must be extremely high. But one can imagine even more costly loads. What a stink would be raised if robbers ever hijacked a trans-port load of Chanel No. 5!

Thoughtful Bandit

Meners had much sympatry for the theory that juvenile delinquents are basically poor mix-coup kide, but we have to saint that there coup kide, but we have to saint that there had been so a form of the saint that case of a North Bay bandii. This young man came into a store, ast wasteing television, played with a dog for an hour, robbed the store's owner at supposition—and then alloped two 370 cheques under a rear door.

A black mark, and even if one is not dog lovers.

Apparently be inspected his loot, found that the cheques would pose a problem in con-verting them into cash—and so returned them to the person to whom they would be valuable, or completely senselies vandallen, this conder-sation for others would be unusual enough for comment, even if it had not been exhibited by a robber.

We hope the police apprehend him. He appears worth straightening out.

RARE, MEDIUM, WELL-DONE

By GEO. H. CARVER, Sports Editor Well, that's that for another year. That golden-pied king of the barnyard has fort his succulant glory d is now demoted to a gaunt stellaton. The final salute his memory was given in the luncheon hash today.

his memory was given in the intensor assigner from timestical lighted branches. Proudly they stood over the family demolition of present packages early Christ-man memors. It was a fine heliday for those of us unlenched by the sorrow of Christmas tragedy.

Before geiling back to the job at hand, this de-pertment expresses his grateful appreciation for the many from bottom of good wishes, cards and otherwise. It is nice, indeed, to know that in a world as loyer every as it is today, see many three sportunent, specifi-reness and others, take a menuant to let a fellow know to it remembered. Thanks a million to all.

It worked. That lifty-six suds-and-ests check proved mighty good investment, so is: "We talked things," said Harvey, "and came up with a few good ideas an effort to take the slump." Up to this point the adway Blues had won only once in ten starts.

Grentice stayed "put" on the other float.

Battaria snapped his personal geories dismos, comlarge and the stay of the stay o

Let's Install "Walk Lights"

Now the Christmas rush is over, survivors have time to draw breath and conclusions. The rush will have served a useful purpose if it leads us to remedy a chronic condition the true proportions of which were made painfully rue proportions of which were made painfully lain by the heavy pedestrian traffic of the past week or so.

Something ought to be done to make cross-ing the streets in the downtown area less has-

what this something should be, only a pro-phet could say with certainty, for what is done hare in Belleville ought to be the same as what have in the same as what Gniarlo, that there might be one rule through-out the province. That, however, requires action by the Onkario Legislature and to date the Legislature has shown title sign of recogni-tion that control of pectetrian krafts is as many that the same of the same that the same limits and the same that the same that the same limits are circumstances it belocores our to haggis. Critics of the haggis point out

Under these circumstances it behooves our city fathers to take a chance and the main chance would appear to be the addition of "walk lights" at those locations which now have traffic lights and the installation of "walk lights" at a lights and the installation of "wat lights" at a few other heavily-used crossings which, for vari-ous reasons, do not require lights for wat-lets and the state of the state of the state of the Campbell Street Joins Front Street, the light and the vicinities of the Belle Theatre and the stational street and the relation of the state of the Belle Theatre and the s

There may be good reason to debate the role which Canada should undertake in NATO and in NORAD, but there would appear no sound reason why Canada could not affort to assume the responsibility for operating radar stations located well within the inhabited areas of our country.

Maintaining Canadian airmen in Europe and leaving the task of manning these radial stations on Canadian soil to Americans does not seem to make much series. Canada ought to take over the operation of the other nine American-manned Pinetree stations as rapidly as possible.

Your message will still be there when he gets back

Your printed advertisement will survive a ringing phone, a trip to the refrigerator. This is one reason why newspapers are most effective in making sales. At any hour of the day, the reader can spend as much time with your advertisement as he chooses... he can re-read it again and again. If he isn't in the market for your product or service today, your message won't annoy him. (Newspapers don't antagonize next year's customer with this year's advertising.) That's why most people (81% by actual survey) not only like, but want, advertisements in their newspapers.

I know many nice-looking women who ky care ing keep thein-secret to themselves. One of them to the prettiest girls I have ever known.—DISGUSTED.

DEAR DISGUSTED:-Thank you. I am sure your ter will help "Broken Hearted" to mend his thinking

DEAR DORIS:—I went to a show with my girl friend d we met some boys she knew so we went and sat with m. I sat beside one boy and just like that I had a mad she on him. When he put his arm around me and held pand, I nearly filpped.

I'm not very cute. I have buck teeth, rather crooked therefore I'm very hard up for boys. I will be getting two front teeth out this month, which might help my blem.—FATTHFUL FAN.

DEAR FATTHFUL — Were you a brat first? For where I sit, your Jeanse and Joe were the culprils. was only human to register an objection. To apolog now would be to act like a doormat—unless you have

dd all.

Get a new look, with your new teeth, and spruce upour appearance. Be friendly—but let Joe be the one to pologize. Nothing else will do any good.

TO JANETTE—You were right to refuse. He probably dose not hate you as much as he hates himself it he saits you cut agin, make him promise to behave; these make sure you don't make it hard for him. No particular to heatching sensions. Something interesting to do together, like bowling or skating. Try it once!

(Ask Doris what she thinks." She will help you take another look at your problem. And that stamp on your return envelope should be a five-cent one!)

RARE, MEDIUM, WELL-DONE By GEO. H. CARVER, Sports Editor

The name of Bobby Hayward, mentioned in the poll of Canadian sports writers and 'casters for the national outstanding shilete, brought a touch of sorrowful neutation in many of us in the area.

They will ripple a requiem to his memory when the summer breezes caross the placid surface under warm-August suns.

The Wrong Attitude

"I would rather take my chances on passing out of this life with the bomb than survive and live in a ravaged land," declares a letter writer to the Hamilton Spectator.

to the Hamilton Speciator.

This is a common reaction to the problem of whether to invest in fall-out shelters. Many of us would sympathise with the Hamilton letter writer. Those who react to failout shelters in the manner generally any circumstance. Noting, they will assert, can justify a course of action which could exterminate mankind. They do not seem to realize that, in preferring death to life in a derrashed world, they are committing precisely the same error as those who defend the use of an activative and the same control of the course of action of the course of but that there should be survivors, in order that their descendants may one day find life worth while again.

The Hamilton letter writer, tho The Hamilton letter writer, though, carried his objections one step further. He not only was not prepared to endure hardships in a devastated world, but he also did not want to share it with the type of people who would survive. From his standpoint, his argument may appear valid. But once again the real important of the control of the

Is Your Up to Date?

Many people review their Will at the beginning of each year. Your many people review under will as the beginning of each year. Your sufficient time and attention to administer your estate. In view of the considerable changes in dollar values your Estate has probably changed

You may have given too many legacies, or too large in amount, un-der your will and have deprived your wife and children of sufficient to provide for their care and keep. You may have to adjust some of the shares going to beneficiaries. Births, marriages and deaths in your family may have made your estate plans obsolete. Increased successi duties and income taxes may affect the estate plans made by you for your family.

Your Will is one of the most important documents you will ever be called upon to sign. If you have a Will, we suggest that you review it now — and if not make your Will now and appoint Victoria and Grey Trust Company as Executor.
